- ◆ Book prizes
- ◆ Student evaluations and recommendations
- ◆ Group analysis of students' best games
- ◆ New training manuals for each session
- ◆ Blitz chess tournament
- ◆ At least 4 staff trainers per session

What Parents and Students Have to Say

My kids love Mr. Mercuri's chess camp very much. No doubt that Mr. Mercuri has a lot of chess teaching experience, but he also creates a very fun, friendly, and encouraging learning environment though the games themselves are quite competitive. I also appreciate receiving the very detailed camp reports in the end, which list my kids' strength and focus areas as a guidance for their further development after the camp.

Bin Xiang, Parent of Andrew and Connor Liu

Since moving to Massachusetts, my kids have not missed a single week of Lou's Summer All Star Chess program. Their favorite summer camp experience. They love the tournaments, blitz chess, and Crystal Lake. Lou is a gifted coach who helps each child discover and develop their individual chess playing style.

Eric Fauman, parent of Jacob, Charlie, Alex, and Ben

Sophia has participated in Lou's All-Star Summer Chess program for the last three years, and she will be back again this summer. She loves the instruction, the other campers, the blitz and puzzle competitions, and even the ping pong. She found a good level of competition there when she started, and she continues to be challenged by the level of play even as she has improved steadily throughout the years. Great program!

Jeremy Rosenholtz, parent of Sophia

This camp is great fun for all ages, both of my kids enjoy the instruction, the games, and the fun recess activities during the camp week. Best chess camp in town!

Julia Abramovich, parent of Jakob and Kendra

After leaving Mr. Mercuri's All-Star chess program, you're hooked on the game.

Jacob Snell

Lou's chess camp is extremely fun and exciting. I got a chance to play many different people who I hadn't played before and I enjoyed playing blitz at the lake. I cannot wait to go again!

Amy Lei

Lou's All-Star Chess program is one of the few summer programs that my son is eager to attend year after year. Kids at all levels of skill play and learn in a fun atmosphere. My son truly enjoys Lou's warm teaching style and his enthusiasm for the game.

Nikki Moore, parent of Aidan

My son and daughter have been going to Lou Mercuri's chess camp for at least five years. They said: "Lou makes learning fun and is passionate about chess. He helped me to improve. There are a lot of different levels, and I can face opponents at my level."

Francoise Kohler, parent of Annabel and Arnaud

Luke and Gavin have been coming to Lou's chess camps since they were 7 years old. The camp attracts some very high-rated players but is also very supportive to less experienced players. It is one of the few places that kids can immerse themselves in a chess-filled environment for a whole week at a time and be with other kids who love to play chess.

Adrienne Randolph, Parent of Luke and Gavin

U.S. Life Master and FIDE Trainer

Grove Street, Newton Lower Falls

Please register online at newtonma.myrec.com

*The program is sponsored and made possible by the
Newton Parks and Recreation Department in cooperation
with Lou Mercuri's All Star Chess Training School.*

From the Director, U.S. Life Master Lou Mercuri

We are pleased to once again partner with the Newton Parks and Recreation Department to bring All Star Chess to the Newton Lower Falls Community Center and to the Emerson Community Center in Newton in the summer of 2024.

After many years of working successfully with chess students on an individual or group basis, I am committed to continuing a training program for young players that will provide an environment conducive to growth and improvement in chess. The emphasis is on specific improvement and feedback for each player, to give every player a chance to grow and improve in chess. Our players continue to learn, develop, and compete successfully for state and national scholastic championships. We continue to offer new training sessions, materials, and topics for each of the weeks. Each session is different and new material is presented.

Our program has attracted students who are eager to learn, and many have played in rated tournaments. There is no minimum or maximum recommended rating, but the general range of abilities is from players just starting tournaments to players in the top 50 for their age in the US.

Due to limited enrollment capacity, we expect the 2024 sessions to fill quickly. Please consider registering at your earliest convenience to ensure a spot.

Please feel free to contact me at (781) 373-1375, or at loumercuri2@aol.com for further information about the program.

Program Details

When

Session I

July 29-August 2, 2024, 9:00am – 3:45pm

Session II

August 12-16, 2024, 9:00am – 3:45pm

Different instructional material will be presented at each session.

Where
